VIRTUAL KEYPAD® APP
Comparison Guide

DESCRIPTION

The Virtual Keypad App enables end users to access to a variety of DMP security system keypad functions remotely from their iOS™ or Android™ devices. This comparison guide is designed to identify the features and capabilities of Virtual Keypad and compare them to the features and capabilities of competitor products.

Note: The comparison information included is from distributors, equipment manufacturers, and their published specifications. DMP is not responsible for errors or changes.

The Virtual Keypad App Compares to:

- Alarm.com® app
- Honeywell® Total Connect 2.0 app
