Thinline™ LCD Keypads

7060/7063/7070/7073/7463

**FEATURES**

- Attractive Thinline keypad housing available in several colors
- Large, 32-character, Liquid Crystal Display (LCD)
- Custom 16-character home or business name
- Keypad and logo backlighting turns Red in alarm conditions
- User-adjustable brightness, tone and volume controls
- Supports “Is this a false alarm?” and Cancel/Verify™ features
- Built-in diagnostics for ease of service
- Simple harness connection to four-wire keypad bus or Local Area Network
- Connect devices directly to keypad zones
- View system events/user activity through keypad display
- AC power and Armed LED
- Suitable for access, burglary and fire applications
- Distinct fire, burglary, zone monitor and prewarn tones
- Displays time of day, armed zones and armed areas
- Optional backboxes for conduit or wall-mount applications
- Unique silence feature allows the user to silence alarm bells and still keep the system armed

**NEW** — The 7463 Network Keypad is compatible with XR Series only.
VERSATILE SUPERVISSED AND UNSUPERVISSED OPERATION
When programmed for supervised operation, the keypad occupies its own unique device address on the keypad data bus. Network keypads must be supervised.

Unsupervised operation allows you to install an unlimited number of keypads set to the same device address. Increasing the number of keypads allows maximum system operating flexibility.

USER-FRIENDLY MENU FUNCTIONS
The User Menu allows you to quickly browse through menu options. Disarming and arming functions are fast and easy. Any function allowed by the user authority level is simply accessed through the keypad, such as silencing alarms, resetting sensors or displaying events.

TWO-BUTTON PANIC KEYS
The top row of keys can be used as two-button panic keys. The user simply presses and holds two of the keys simultaneously to send either a panic, non-medical emergency or fire report to the monitoring center.

“IS THIS A FALSE ALARM?” AND CANCEL/VERIFY
In a Home/Sleep/Away or All/Perimeter system, you can CANCEL a burglary alarm or VERIFY that a valid burglar alarm has occurred or similarly answer whether it is a false alarm with YES or NO. Selecting VERIFY or YES manually verifies that an alarm occurred and sends an alarm verification message to the monitoring center.

KEYPAD SHORTCUT KEYS
Keypad shortcut keys are provided to simplify operation and allow the user to more quickly arm, check in, monitor, exit or reset the system. One-button arming creates the simplest keypad available. Use the one-button shortcut keys for common functions, or use the ATM style menu for advanced functions, whichever method meets the user’s needs or level of expertise with the system.

END-USER CONTROL
Each of the Thinline Series keypads provides a simple User Options menu for adjusting brightness, speaker tone and volume.

VALUABLE VISUAL ALARM INDICATOR
In a normal state, both the keypad and logo backlighting remain Green. However, during an alarm state, the keypad and logo turn Red. The change in color allows individuals on-site to instantly recognize an alarm condition.

DISTINCT SOUND PATTERNS
The keypads also provide distinct sound patterns for fire, burglary, zone monitor and prewarn that can help users identify the event occurring on their system.

RETROFIT ANY EXISTING DMP SYSTEM
Retrofitting is quick and easy. Thinline keypads have the same footprint as existing DMP keypads and mount in currently installed backboxes. Thinline Series keypads require no special modules or panel upgrades. You can provide a new look and greater functionality to an existing system at just a fraction of the cost of all new equipment.

MULTIPLE-KEYPAD SAVINGS
Install multiple keypads on the same wire run. Compatibility and cost savings make the Thinline Series an asset in every installation.

OPTIONS
The Thinline Series keypads also provide Keypad Options and Keypad Diagnostics menus available only to system installers and service technicians. Enter Keypad Options to set the keypad address and change the default keypad message.

Test the keypad operation at any time without disabling the system. The diagnostics program tests the LCD segments and backlighting, each of the 16 keyboard keys and the four zones on the 7070 and 7073 keypads.

WEATHER INFORMATION
Up-to-date weather information for today and tomorrow will be displayed in the status list for cell or network connected panels. If the panel is not capable of supporting weather, the space will be blank. Eight statuses are available to indicate the weather: SUNNY, CLEAR, P- CLOUDY, CLOUDY, RAINY, SNOWY, STORMY and FOGGY.

7463 NETWORK THINLINE LCD KEYPAD
When you’re installing an XR Series alarm panel in a building that’s already wired for IP network, DMP’s new 7463 Network Keypad gives you the advantage of saving time by plugging into the existing network. Power the keypad from the included 12 VDC plug-in transformer. Also included is a backup battery for four hours of standby power. Network keypads require XR Series Version 201.
UNIVERSAL PROGRAMMING TOOL
System installation and programming can be achieved without carrying around or purchasing expensive external programmers since panel and add-on module programming is integrated into DMP keypads.
Individually program panels, CellComSL Series communicators, iComSL Series communicators and other programmable add-on modules directly from the keypad.

7070/7073 FOUR EXPANSION ZONES
Zone expansion is available right on the keypad where you need it the most. The four expansion zones on the 7070 and 7073 models are fully programmable Class B protection zones that can be used for a variety of fire, burglary and access control applications.

ZONE TYPE SELECTION
Keypad zones can be programmed using the same zone types available on the panel. Select supervised, unsupervised, night, fire, panic, exit and emergency operation depending on the user requirements.

ZONE DEVICE CHOICES
Connect PIRs, door and window contacts, pull stations, sprinkler tamper switches and silent panic buttons. Plan the installation to afford the best coverage while eliminating potential problems associated with multiple wire runs.

7063/7073/7463 CODELESS ARMING AND DISARMING
The innovative 7063, 7073 and 7463 Thinline keypads contain an onboard DMP proximity reader that allows users to simply present their proximity credentials to the keypad to gain access to a protected area. You can program up to seven different card formats for compatibility with what your customers are using.

7073 MOMENTARY BYPASS
To provide an entry and exit window on systems with 24-hour perimeter protection, DMP offers the momentary bypass feature. Momentary bypass allows the user enough time to enter or exit the area. If the door remains open when the timer expires, a zone open/short is sent to the panel for the keypad Zone 2.

7073 EXTERNAL READER
Add an external Wiegand-compatible reader to the 7073. This makes indoor/outdoor applications easy — or anywhere you need to add an external proximity or other technology reader.

REQUEST-TO-EXIT (REX)
To enable easy user exit from an area, connect a motion sensing or mechanical device to Zone 3 on the keypad. As the user trips the zone, the keypad activates the door strike allowing the user to exit the area without presenting a card or entering a user code.

PRIVATE LABELING
DMP offers dealers the option to present their company logo on the 7000 Series keypads. The logo displays on the rubber logo insert and replaces the DMP logo. The backlit logo glows Green during normal operation and turns Red in an alarm state.

COMPATIBILITY REFERENCE SHEET

THINLINE™ KEYPADS

KEYPAD ACCESSORIES

Alternate Housings
- THIN-LCD-B Black Housing
- THIN-LCD-I Ivory Housing
- THIN-LCD-P Platinum Housing
- THIN-LCD-W White Housing

Backboxes
- 695 Keypad Conduit Backbox
- 696 Keypad Backbox

Keypad Wiring Harness
- 300 4-wire harness
- 300-5 5-wire harness
- 300-12 12-wire harness
- 300-512 12-wire harness, 5’ long
- 300-7400-6 6-wire 7400 harness

Proximity Credentials
- 1306 Prox Patch™
- 1306PW Prox Patch
- 1326 ProxCard III® Access Device
- 1346 ProxKey III® Access Device
- 1351 ProxPass®
- 1386 ISOProx II® Card

External Proximity Readers (7073 Only)
- PP-6005B ProxPoint® Plus Proximity Reader
- MP-5365 MiniProx Proximity Reader
- PR-5455 ProxPro® II Proximity Reader
- MX-5375 MaxiProx® Proximity Reader
- TL-5395 ThinLine II® Proximity Reader

Farpointe Proximity Credentials
- CSR-35P Conekt Bluetooth Reader
- Delta 3 Contactless Mullion-Mount Smartcard Reader
- Delta 5 Contactless Mullion-Mount Smartcard Reader
- Delta 6.4 Contactless Smartcard Reader and Keypad
- P-300-H-A Cascade Proximity Reader
- P-500-H-A Alps Proximity Reader
- P-620-H-A Denali Proximity Reader with Keypad
- P-640-H-A Patagonia Proximity Reader with Keypad

7060-W ThinLine LCD Keypad
7060N-W ThinLine LCD Keypad with Numeric Keys
7063-W ThinLine LCD Keypad with Prox Reader
7063N-W ThinLine LCD Keypad with Prox Reader and Numeric Keys
7070-W ThinLine LCD Keypad with 4 Zones
7070N-W ThinLine LCD Keypad with 4 Zones and Numeric Keys
7073-W ThinLine LCD Keypad with 4 Zones, Prox Reader and Door Access Relay
7073N-W ThinLine LCD Keypad with 4 Zones, Prox Reader, Numeric Keys and Door Access Relay
7463-W ThinLine LCD Network Keypad with Prox Reader

Specifications
- Operating Voltage: 12 VDC
- Dimensions: 7” W × 5.25” H × 0.5” D
- Display Type: LCD
- Color: White

Compatibility
- Compatible with all DMP panels. Not available in a Fire Keypad Variation. 7463 — XR Series only.

Current Draw
7060
- Standby: 72 mA
- Alarm: 87 mA

7063
- Standby: 85 mA
- Alarm: 100 mA

7070
- Standby: 72 mA + 1.6 mA per active zone
- Alarm: 87 mA + 2 mA per active zone

7073
- Standby: 85 mA + 1.6 mA per active zone
- Alarm: 100 mA + 2 mA per active zone

7463
- Standby: 100 mA
- Alarm: 100 mA
- Max Battery Charging: 285 mA
