

## XR150/XR550 SERIES PANELS

### *Operating Instructions*

#### **NORMAL STANDBY CONDITION**

When the system is in the normal standby condition, the keypad shows either the time of day or a blank display.

#### **ALARM CONDITION**

When the system is in an alarm condition, the keypad displays in red and shows the violated zone name(s) followed by an alarm display.

#### **ALARM SILENCE**

To silence the alarm while the bell or siren is sounding, enter your code number and press the **CMD** key. This silences the alarm but does not cancel any alarm reports to the central station.

#### **RESETTING DETECTORS**

To reset a smoke or other detector, enter the User Menu by pressing the **CMD** key until **MENU? NO YES** appears in the display. Press the top row key under **YES**. The display shows **ENTER CODE: -**. Enter your code number and press **CMD**. The keypad display now shows **ALARM SILENCE?** if your code allows. Press the **CMD** key until **SENSOR RESET?** appears in the display. Press any top row key.

#### **TROUBLE CONDITION**

When a device is in a trouble condition, the keypad tones and displays the zone or device name followed by **TRBL**. Press any top row key to silence.

#### **SYSTEM TESTING**

You should test the security system weekly to ensure proper operation. If your user code allows, you can do this through a function in the User Menu. After entering the User Menu, press the **CMD** key until **SYSTEM TEST?** displays. Press the left most top row Select key. The system bell, battery, and communication to the central station receiver system is then tested.

#### **ALARM SERVICE**

If service is required for this system, please contact:

**Company** \_\_\_\_\_

**Address** \_\_\_\_\_

**Telephone** \_\_\_\_\_

The operating instructions above should be attached to the front, or framed, and located adjacent to the panel or a keypad with an alphanumeric display.
