Install ethernet or Wi-Fi connected cube camera

Manually initiate recording of video from VirtualKeypad.com or Virtual Keypad™ app

Continuous video recording using the eight-channel network video recorder (NVR)

Users can select any of the cameras remotely to view or capture video via the Virtual Keypad app or VirtualKeypad.com

Cloud storage of clips for easy off-site archiving

Download clips to smartphone to quickly forward as needed

PoE (Power-over-Ethernet) for easy installation and reliability

Allows residential users to remotely look in on children or seniors

Allows commercial users to observe employee activities, monitor certain areas or entrances

Video verification available via Virtual Keypad app and the monitoring center automation software

Exclusive EASYconnectVPN™ for encrypted connectivity
Video products

Video cameras connected to residential and commercial security systems give users a powerful security tool. With cameras, businesses and homeowners can check in on their premises at any time, as well as be prompted to determine the situation upon an alarm in the event of an intrusion. Monitoring center operators can also assess the premises upon an alarm as live video and recorded clips are available immediately at the monitoring center.

Virtual Keypad app users will receive real-time alarm notification on their mobile devices. Users can immediately cancel or verify the alarm from the same app screen that shows live-camera views from the premises or pre-alarm and post-alarm recorded clips.

Camera options

Select from a range of wireless or wired IP cameras to meet the needs of each installation. Cameras are available in a variety of models including cube, dome and bullet.

All cameras include infrared operation in low/no ambient light.

Image capture options

Users have the option not only to view the cameras attached to their system, but also to record video to document activity at their premises via the Virtual Keypad app or VirtualKeypad.com. All cameras can be programmed to automatically record 20-second video clips when motion is detected.

Users can opt to receive an email with the video clip any time a recording is made and view the clip via the app or download it to their smartphones.

Recorder options

Record and access video images using existing IP cameras through the network video recorder (NVR).

Add-on sale

Video capability is a much-desired, value-added capability for your customers’ systems. DMP forward/backward compatibility ensures that you can easily add cameras to existing systems as well as include them in new systems.

True Wide Dynamic Range

With True Wide Dynamic Range you get a clearer image in situations where you have an area brighter than other areas of the image.

Video verification

DMP surveillance solutions includes significant enhancements in video verification, which provides the added benefit of visual information that is sent with alarm notifications to a monitoring station. As a result, operators can view the footage right away and determine whether the trigger is a false alarm or worthy of a police dispatch.

At the same time, users can also receive video verification on any alarm triggered into a DMP panel, which they can easily monitor and manage from anywhere via VirtualKeypad.com or the Virtual Keypad app. As a result, they can prevent being assessed heavy fines for false alarms.

Video verification can be integrated into virtually any modern monitoring center automation software simply and easily. There is no expensive or arduous integration process required.

EasyConnectVPN™ for unrivaled security and privacy

A virtual private network (VPN) is one of the most essential tools, not only for businesses but also homeowners. Using a VPN ensures that live video sent to SecureCom servers via the internet remains private — that’s because it encapsulates and encrypts the traffic before it’s sent over the internet. EASYconnectVPN is the private firmware exclusively for SecureCom Wireless™ and DMP and is standard protocol, not only for SecureCom cameras and NVRs, but also some compatible Digital Watchdog® cameras.
INDOOR/OUTDOOR FIXED DOME CAMERA

The V-5052D has 2.1 megapixel resolution, 4 mm focal length and IR LEDs for no/low light imaging at up to 60 feet.

The V-5054D has 4 megapixel resolution, 4 mm focal length and IR LEDs for no/low light imaging at up to 60 feet.

INDOOR/OUTDOOR BULLET CAMERA

The V-5012B has 2 megapixel resolution, 4 mm focal length and IR LEDs for no/low light imaging at up to 60 feet.

The V-5014B has 4 megapixel resolution, 4 mm focal length and IR LEDs for no/low light imaging at up to 60 feet.

INDOOR CUBE CAMERA

The V-4022C has 2 megapixel resolution, 2.8 mm focal length, Wi-Fi and IR LEDs for no/low light imaging at up to 10 meters.

SECURECOM CAMERA MOUNTING PLATE

White steel camera mounting plate for use with electrical single gang boxes and the SecureCom dome camera — V-4052D.

NETWORK VIDEO RECORDER

The DMP V-4408D NVR works hand-in-hand with Virtual Keypad™ Access to expand storage and manipulate multiple cameras. The NVR has ports for up to eight networked cameras and can store up to 2 terabytes of video. You can access that video from the NVR or directly from the Virtual Keypad app or VirtualKeypad.com. It’s fast and simple to view security footage in live view. You can also easily download and export clips to other devices locally via a USB drive.

Supporting ONVIF® and SecureCom video cameras, our PoE NVR can be installed to fit most any need.

WIRELESS ACCESS POINT

This high-speed wireless access point (V-IP1006RR) comes pre-configured for easy set up with SecureCom cameras. It offers 300 Mbps wireless speed, supports multiple operation modes, PoE, WPA and WPA2. WPS encrypted connection can be set up with a single-button push. Up to 100-foot range.
**Camera Specifications**

**V-4022C Indoor Cube Camera**
Dimensions  4.1" H × 2.6" W × 1.3" D

**V-4052D Fixed Dome Indoor/Outdoor Camera**
Dimensions  4.4" Dia × 3.2" H

**V-5012B/V-5014B Bullet Indoor/Outdoor Camera**
Dimensions  6.4" H × 2.65" W

**V-5052D/V-5054D Fixed Dome Indoor/Outdoor Camera**
Dimensions  4.9" H × 2.9" W

**DWC-MF2IMATIRDMP DW Megapix Surface Mount Outdoor Dome IP Camera**
Dimensions  2.9" H × 4.9" W

**DWC-MB72IMATIRDMP DW Megapix 1080P Weather Resistant Indoor/Outdoor Bullet IP Camera**
Dimensions  6.4" H × 2.7" W
