**FEATURES**

- Install ethernet or Wi-Fi connected cameras
- Manually initiate recording of video from VirtualKeypad.com™ or Virtual Keypad™ app
- Continuous video recording using the eight-channel Network Video Recorder (NVR)
- Users can select any of the cameras remotely to view or capture video via the Virtual Keypad app or VirtualKeypad.com
- Cloud storage of clips for easy off-site archiving
- Wireless cameras can be quickly repositioned by the end user as needed
- Download clips to smartphone to quickly forward as needed
- Use existing analog or IP cameras with four-channel analog converter
- PoE (Power-over-Ethernet) switch for easy installation and reliability
- Allows residential users to remotely look in on children or seniors
- Allows commercial users to observe employee activities, monitor certain areas or entrances
- Video verification available via Virtual Keypad app to the monitoring center automation software
- 720 HD 1.3 megapixel image quality
- Exclusive EASYconnectVPN™ for Encrypted Mobile Connectivity

**INDOOR/OUTDOOR FIXED DOME INFRARED CAMERA**
Dimensions: 4.4” Dia × 3.2” H
- 1.3 megapixel resolution with IR LEDs for no/low light imaging at up to 30 meters

**INDOOR/OUTDOOR BULLET CAMERA**
Dimensions: 3.0” H × 2.4” W × 5.5” D
- 1.3 megapixel resolution with IR LEDs for no/low light imaging at up to 30 meters

**HD IP MOTORIZED INDOOR CAMERA**
Dimensions: 5.51” H × 4.49” W
- 1.0 megapixel resolution with IR LEDs for no/low light imaging at up to 10 meters
- Motorized pan/tilt rotation

**INDOOR CUBE PIR CAMERA**
Dimensions: 5.2” H × 2.8” W × 3.6” D
- 1.3 megapixel resolution with PIR detection and IR LEDs for no/low light imaging at up to 10 meters

**WIRELESS ACCESS POINT**
Dimensions: 1.4” H × 7.1” W × 4.9” D
VIDEO PRODUCTS
Video cameras connected to residential and commercial security systems give users a powerful security tool. With cameras, businesses and homeowners can check in on their premises at any time, as well as be prompted to determine the situation upon an alarm in the event of an intrusion. Monitoring center operators can also assess the premises upon an alarm as live video and recorded clips are available immediately at the monitoring center.

Virtual Keypad™ app users will receive real-time alarm notification on their mobile devices. Users can immediately cancel or verify the alarm from the same app screen that shows live-camera views from the premises or pre-alarm and post-alarm recorded clips.

CAMERA OPTIONS
Select from a range of wireless or wired IP cameras to meet the needs of each installation. Cameras are available in a variety of models including cube, dome and other designs.

All cameras include infrared options and LED illumination for operation in low/no ambient light. Choose a camera with a motorized pan/tilt ability to completely survey the premises.

IMAGE CAPTURE OPTIONS
Users have the option not only to view the cameras attached to their system, but also to record video to document activity at their premises via the Virtual Keypad app or VirtualKeypad.com. All cameras can be programmed to automatically record 20-second video clips when motion is detected.

The user can opt to receive an email with the video clip any time a recording is made then view the clip via the app or download it to their smartphone.

RECORDER OPTIONS
Record and access video images using existing analog cameras through the analog converter, or use existing IP cameras through the Network Video Recorder (NVR).

NVR PACKAGES
DMP offers two different IP camera packages featuring SecureCom Video’s high-definition (NVR) in combination with our best-selling SecureCom cameras, both delivering the versatility of indoor/ outdoor performance. All SecureCom cameras learn in and configure automatically for a plug-and-play installation within a couple of minutes. These combined packages include four of either the SecureCom Bullet or SecureCom Dome cameras bundled with the NVR to offer you savings and yet everything you need for secure 720p HD video monitoring.

ADD-ON SALE
Video capability is a much-desired, value-added capability for your customers’ systems. DMP forward/backward compatibility ensures that you can easily add cameras to existing systems as well as including them in new systems.

VIDEO VERIFICATION
DMP surveillance solutions includes significant enhancements in video verification, which provides the added benefit of visual information that is sent with alarm notifications to a monitoring station. As a result, operators can view the footage right away and determine whether the trigger is a false alarm or worthy of a police dispatch.

At the same time, users can also receive video verification on any alarm triggered into a DMP panel, which they can easily monitor and manage from anywhere via VirtualKeypad.com or the Virtual Keypad app. As a result, they can ensure police and/or fire departments are dispatched to a “real” alarm, plus they can prevent being assessed heavy fines for false alarms.

Video Verification is available to be integrated into virtually any modern monitoring center automation software simply and easily. There is no expensive or arduous integration process required.
**INDOOR/OUTDOOR FIXED DOME INFRARED CAMERA**
The V-4050D-1 has 1.3 megapixel resolution, 4 mm focal length and IR LEDs for no/low light imaging at up to 30 meters.

**INDOOR/OUTDOOR BULLET CAMERA**
The V-4010B-1 has 1.3 megapixel resolution, 4 mm focal length and IR LEDs for no/low light imaging at up to 30 meters.

**HD IP MOTORIZED INDOOR CAMERA**
The V-4030PT-1 has 1.0 megapixel resolution, 4 mm focal length, PIR detection and IR LEDs for no/low light imaging at up to 10 meters. The V-4030PT-1 also features a pan/tilt rotation.

**INDOOR CUBE PIR CAMERA**
The V-4020C-1 has 1.3 megapixel resolution, 4 mm focal length, PIR detection and IR LEDs for no/low light imaging at up to 10 meters.

**SECURECOM CAMERA MOUNTING PLATE**
White steel camera mounting plate for use with electrical single gang boxes and the SecureCom Bullet or Dome cameras.

**NETWORK VIDEO RECORDER**
The DMP V-4408D NVR works hand-in-hand with Virtual Keypad Access to expand storage and manipulate multiple cameras. The NVR has ports for up to eight networked cameras and can store up to 2 terabytes of video. You can access that video from the NVR or directly from the Virtual Keypad app or VirtualKeypad.com. It’s fast and simple to view security footage in live view. You can also easily download and export clips to other devices locally via a USB drive. Supporting ONVIF® and SecureCom video cameras, our PoE NVR can be installed to fit most any need.

**WIRELESS ACCESS POINT**
This high-speed Wireless Access Point comes pre-configured for easy set up with SecureCom cameras. It offers 300Mbps wireless speed, supports multiple operation modes, PoE, WPA and WPA2. WPS encrypted connection can be set up with a single-button push. Up to 100-foot range.

**DIGITAL WATCHDOG™ INTEGRATION**

**1080P RESOLUTION**
This high-performance surveillance solution delivers crystal-clear 2.1 megapixel 1080 resolution images at 30fps. The 1080 resolution delivers zoom capabilities to reveal high-definition image details.

**DW® MEGAPIX® SURFACE MOUNT OUTDOOR DOME IP CAMERA**
The DWC-MF21M4TIRDMP has 2.1 megapixel 1080P resolution, 4 mm focal length, and Smart IR™, WDR and 3D DNR for quality video in challenging lighting environments.

**DW® MEGAPIX® 1080P WEATHER RESISTANT INDOOR/OUTDOOR BULLET IP CAMERA**
The DWC-MB721M4TIRDMP has 2.1 megapixel 1080P resolution, 4 mm focal length, and Smart IR™, WDR and 3D DNR for quality video in challenging lighting environments.

**NOTE**: Purchase these cameras wherever Digital Watchdog products are sold.
