

Video Doorbell™

FEATURES

- ▶ Integrates video and voice capabilities for user's front door
- ▶ Provides integration with Virtual Keypad™
- ▶ Small, easy-to-install product

- ▶ 180-degree field of view
- ▶ 1080p HD video
- ▶ Two-way full-duplex audio communication
- ▶ Notifications or live camera view on Virtual Keypad app
- ▶ Motion detection regions
- ▶ Motion sensitivity settings
- ▶ Day/Night video functionality
- ▶ Auto adjusting bitrate Wi-Fi connection
- ▶ Pinch-to-Zoom for a closer look
- ▶ Optional SecureCom™ NVR connectivity
- ▶ Uses existing doorbell power
- ▶ Weather-resistant case
- ▶ Wedge accessories for flexible camera angle to fit entrance layout (optional)
- ▶ Access to more than 2,000 stored video clips

CAMERA CHARACTERISTICS

The V-4060DB Video Doorbell produces 1080p high-definition video with a 180-degree view. The V-4060DB offers both day and night functionality. Video is still visible in low-light conditions.

IMAGE CAPTURE OPTIONS

Users have the option not only to view the doorbell's camera, but also to record video to document activity at their premises with the Virtual Keypad app — the same app they rely on to manage their security and home automation systems. The camera is engineered for fast connectivity and can be programmed to automatically record video clips when motion is detected. The user can opt to receive notifications any time a motion is detected or the doorbell is pressed.

ONBOARD STORAGE

The V-4060DB Video Doorbell includes a pre-installed 16GB Micro SD Card, providing access to more than 2,000 stored video clips that are ready to view anytime, anywhere through the Virtual Keypad app. The onboard storage keeps your surveillance recordings secure, and even if the user's Wi-Fi connection fails, the camera will continue to record any time motion is detected or the doorbell is pressed.

CONTINUOUS RECORDING OPTION

For continuous recording, the V-4060DB Video Doorbell can be connected to the eight-channel SecureCom V-4408D Network Video Recorder (NVR). The NVR delivers 2 terabytes (TB) of encrypted storage.

OUTDOOR DESIGN

The Video Doorbell is designed to withstand harsh environments as well as provide a high degree of vandal resistance. This allows reliable performance in most harsh environments.

MULTIPLE HOUSING COLOR OPTIONS

The V-4060DB Video Doorbell comes with four interchangeable faceplate options that are easy to install. Color options include black, charcoal, silver, and pearl.

EASILY LEARNS IN WITH VIRTUAL KEYPAD APP

Setting up Wi-Fi configuration for the V-4060DB Video Doorbell is secure and easy. With the Virtual Keypad app open on the user's phone, hold the phone next to the doorbell, and the phone's Quick Response (QR) Code learns in the Video Doorbell to the user's Wi-Fi network.

Once it's learned in the first time, users can easily manage their doorbell's Wi-Fi connectivity through the Virtual Keypad app, even if they change Wi-Fi networks.

OVER-THE-AIR AUTOMATIC FIRMWARE UPDATES

There's no need to update firmware with new features. All updates will release to the user automatically.

BENEFITS OF 2.4 GHZ FREQUENCY

The V-4060DB Video Doorbell is engineered to work on the 2.4 GHz frequency band, which is the universal frequency for most routers. There are a number of advantages of tuning in to 2.4 GHz frequency; namely, range. It delivers robust wireless solutions with better penetration through concrete walls and other obstructions to ensure premium Wi-Fi signal strength outside.

Specifications

Sensor and Lens

Image Sensor	CMOS 2MP HD
Lens	1.96 mm, F/2.2
Field of View	180° Horizontal, 96° Vertical
Video Compression	H.264
Frame Rate	up to 30 fps
IR Distance	16 feet

Network

Wi-Fi Frequency	2.4 GHz
-----------------	---------

Storage

On-Board Storage	16 GB SD card installed (Supports up to 128 GB)
------------------	----------------------------------------------------

Hardware

Power Required	16VAC to 24VAC
Power Consumption	Max 0.6A
Operating Temp	-22°F to 122°F (-30°C to 50°C)
Dimensions	1.81" W X 4.82" H X 1.11" D

Ordering Information
