ABOUT THE XTLtouch™

The XTLtouch offers flexible features and functionality. It contains an XTLplus control panel with an integrated graphic touchscreen keypad, providing one device to control and operate a system. The XTLtouch has an LTE cellular communicator pre-installed for cellular use. The XTLtouch can be mounted to a wall or can be used for tabletop use. The XTLtouch provides the following features:

- 5” graphic touchscreen screen
- Three-part housing (cover, base, and backplate)
- On-board proximity reader for DMP, HID, and Farpointe credentials
- On-board Wi-Fi
- Z-Wave Plus™ support
- 800 mAh battery backup
- Two-way communication using 900 MHz frequency hopping spread-spectrum technology
- 1100 Series Wireless support
INSTALL THE XTLtouch

Wall Mount (XTLtouch)
For wall mount installations, use the included backplate to mount the XTLtouch to a wall.

💡 Note: Install the XTLtouch near a wall outlet for the plug-in power supply. The power supply should be located within 100 feet of the XTLtouch using 22 AWG wire.

Desk Stand (XTLtouchUSB)
For desk stand installations, use the included legs for tabletop use.
WALL MOUNT

1 Mount the Backplate

1. Press the tab and remove the backplate from the XTLtouch. See Figure 3.

![Figure 3: Removing the Backplate](image-url)
2. Use the level and the included #6 screws to mount the backplate to the wall. See Figure 4 for mounting hole locations.

Figure 4: Mounting Hole Locations
2 **Wire for Power**

See Figure 5 for wire routing instructions before wiring the XTLtouch for power.

1. Connect the XTLtouch +DC terminal to the positive terminal on the power supply.
2. Connect the XTLtouch -DC terminal to the negative terminal on the power supply.
3. Plug the power supply into a 120 VAC 60 Hz dedicated outlet that’s not controlled by a switch.
4. Replace the XTLtouch on the mounted backplate.
5. Insert the included set screw to secure the XTLtouch to the mounted backplate. See Figure 6.

DESK STAND

1. **Install the Desk Stand Legs**
   1. Insert one leg into the holes in the back of the XTLtouch.
   2. Slide the leg upwards until the leg firmly snaps into place. Repeat steps 1 and 2 to install the other leg. See Figure 7.

![Figure 7: Connecting the Desk Stand Legs](image)
2 Power the XTLtouch

1. Plug the micro USB end of the cable into the back of the keypad.
2. If desired, insert the cable into the strain relief to secure the XTLtouch to its power source. See Figure 8.
3. Plug the other end of the cable into the transformer.
4. Plug the power supply into a 120 VAC 60 Hz dedicated outlet not controlled by a switch. Use the wall strap to secure the transformer to the wall.

ADDITIONAL INFORMATION

SECONDARY POWER SUPPLY

The XTLtouch’s 800 mAh rechargeable standby battery is used to provide four hours of battery power when DC power is not available. The battery is intended for back power only and should not operate the panel on a daily basis.

If the battery is low or not plugged into the battery connector, a low battery condition is indicated by the panel. If a 24 hour standby battery is needed, connect a 4800 mAh battery.

**Replace the Battery**

1. Remove the backplate from the XTLtouch.
2. Unplug the battery and remove it from the base.
3. Place the new battery in the same location and secure it with the included adhesive. See Figure 9.
4. Plug in the new battery.
5. Replace the backplate.

Figure 9: Replacing the Battery
Update Panel Firmware

1. Log in to dmpdealeradmin.com.
2. Navigate to a customer and select their account number.
3. Click Remote Update located in the side menu.
4. Click Update System.

For more details, refer to Dealer Admin Help.

Add a Custom Dealer Logo

To add a custom dealer logo, remove the backplate. Insert a Micro SD card containing the logo file into the keypad slot with the gold pins facing you. Select ADD to upload the file. At ADDING LOGO SURE?, select YES. If the upload was successful, ADDING LOGO COMPLETED is displayed.

Add Dealer Info

To include information about the dealer when the custom logo is pressed on the home screen, select ADD. The keypad displays ADDING INFO SURE?. Press YES to proceed. ADDING INFO COMPLETED displays to confirm a successful upload. Press and release the Micro SD card to eject it from the XTLtouch.

ANSI/UL 1635   Digital Burglar
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications made by the user and not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

**Note:** For listed residential fire and burglary applications, wire runs connected to the XTLtouch terminal block must remain in the same room within 98.5 feet (30 meters.)
INDUSTRY CANADA

This device complies with Industry Canada Licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:

1. l’appareil ne doit pas produire de brouillage, et
2. l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.
