

LinearLinc BulbZ™

Applications: Living room, bedroom, bathroom, kitchen, family room, den, basement, garage

Compatibility: Works with all Z-Wave hubs or controllers

Benefits:

- Efficient, beautiful light
- Dimmable to 100 levels
- Saves money & energy

BulbZ: Z-Wave-Controllable Dimmable LED Light Bulb

Giving your smart home the elegance of residence-wide remote lighting control is as easy as screwing in a light bulb with the LinearLinc™ BulbZ.

BulbZ is the first mass-market Z-Wave®-enabled LED light bulb available. Consuming only 9 watts of energy, BulbZ provides gorgeous, soft white illumination just like traditional 60-watt incandescent bulbs. Over its lifespan, BulbZ will save you more than \$140* in energy costs.

Not only is BulbZ super-efficient, but it's also fast and flexible, with instant-on lighting that is dimmable to 100 levels to match your mood and comfort.

As a fully-compliant Z-Wave Plus device, you can control BulbZ from anywhere utilizing your Z-Wave hub or controller's mobile user interface. You can also create programmed events with BulbZ by making it come on or off when triggered by other Z-Wave products' actions. Or just set the mood by setting up a scene with BulbZ and your Z-Wave hub or controller. And, BulbZ will also strengthen your Z-Wave mesh network because it acts as a repeater for other Z-Wave signals!

No wiring to mess with! No electrician or contractor necessary! BulbZ makes your smart home a lighting masterpiece - Quick, easy, and efficient, with just the turn of your wrist!
